EDUCATION

Lahore Garrison University – BSc. Computer Science – CGPA – 3.42

2022-2026(expected)

Lahore College for Women University – FSc. Pre-Engineering

2020-2022

Aligarh Public School – Matric

2007-2020

PROFESSIONAL EXPERIENCE

Webify Tech – *Mern Intern*

July-September,2025

- Started my internship as a **MERN Stack Web Developer**; currently learning and contributing to **web development projects**.

Internee.pk – *AI/ML Intern*

March - May,2025

- Worked on **AI/ML projects**, building and testing models using **Python** and **relevant libraries**.

LEADERSHIP & EXTRACURRICULARS

TECHSPHERE SOCIETY – *Co-Lead of Management Team*

2025-Present

- Assisting with IT/CS-related workshops, seminars, and tech competitions.
- Helped organize the ‘Intra-Tech Competition’ featuring Web Development, Game Design/Development, Poster Designing, Quiz, and On-Spot Speed Programming.
- Actively supporting team coordination and event management.

CERTIFICATIONS

- Advanced Python Programming and Applications** – NAVTCC – PNY Institute – ARFA KARIM
- Programming Foundations with JavaScript, Html, Css** – Coursera – DUKE University
- Python for Data Science** – Lahore Garrison University
- Graphic Designing** – Khurshid Akhtar Khan Training Institute

PROJECTS

Google Forms – *MERN stack – Backend , Frontend*

- Built a Google Forms clone using the **MERN** stack with full form creation and **response storage**.
- Implemented **JWT** authentication, secure **REST APIs**, and a responsive UI using **Tailwind CSS**.
- Collaborated in a team using **GitHub** workflows (branches, pull requests, code reviews).

Forever E-commerce – *MERN stack – Frontend , Admin , Backend*

- Built a fully functional E-commerce platform using the MERN stack with user authentication, product browsing, cart management, and order placement integrated with MongoDB.
- Developed an admin dashboard to add/remove products, manage inventory, and view customer orders using secure REST APIs and a responsive frontend.

CourierBox – *MERN stack*

- Developed a full-stack courier booking and tracking system with **user registration**, **parcel booking**, **real-time status checks**, and **admin updates**.
- Built with **React**, **Node.js**, **Express**, and **MongoDB**, implementing **secure authentication**.

Real-Estate-Website – *React.js + Tailwind – Frontend*

- Built a **responsive** real estate website with property listings and search functionality. Created interactive UI components using **React.js** and styled with **Tailwind CSS**.
- Focused on **clean design** and **mobile-friendly layout**.

Spotify Clone – *React & Tailwind – Frontend*

- Built a responsive Spotify-style music interface using React, **Tailwind CSS**, and **JSON-based data** for tracks and playlists.
- Implemented reusable UI components, playlist browsing, and modern styling to replicate core Spotify UI elements.

TaskEase – *Python Django*

- Built a platform to **find and hire helpers** by **category** and **location**. Added **user registration**, **profile viewing**, **search filters**, and **admin dashboard**.
- Used Django ORM to manage **database** for users and helpers. Created user-friendly pages with Django templates.

SKILLS

Python, C++, JavaScript, Html, Css, MERN Stack, Django, Tailwind, Bootstrap, jQuery, Sql, MongoDB, Numpy, Pandas, Git, GitHub, Teamwork and Collaboration, Problem solving, Adobe illustrator & Photoshop, Ms Word, Excel, Powerpoint
